

The Abstract GuideLines

The abstract is to provide a clear and concise summary of the:

- Purpose of the study (problem) and research questions or specific objectives
- Research methodology used (If applicable)
- Major findings and conclusions (If any)
- Major recommendations or suggestions for improvement (If any)

The abstract should be approximately 300 - 400 words. It should be prepared after the major sections of the project report have been written but presented as front matter material in terms of sequence.
